Product Name	Manufacturer	Product Range	Description
Paramount Lubricants AdBlue	Paramount Lubricants	AdBlue	Available in 20 litres and 50 litres. Premium Diesel Exhaust Fluid, as defined by the ISO 22241 standard, it is crucial for ensuring the proper functioning of Selective Catalytic Reduction (SCR) systems in vehicles, which is designed to reduce the harmful nitrogen oxide (NDx) emissions. This standard ensures the quality and purity of AdBlue, generating its effectiveness in converting NDx into harmless nitrogen and water.
Paramount Lubricants 46 Hydraulic Oil	Paramount Lubricants	Hydraulic Oil	Available in 15 litres and 20 litres. Hydraulic oil specifications are crucial for selecting the correct oil to ensure optimal performance and longevity of hydraulic systems. These includes viscosity, oxidization stability, thermal stability, anti-wear properties, admissibility and more.
Paramount Lubricants 15W-40 Engine Oil	Paramount Lubricants	Engine Oil	Available in 3.5 litres
Wix Filters	Wix		<p>Wix is ISO/TS16949 Registered company with global presence over 14 locations around the globe such as Sao Paulo in Brazil, Valencia in Venezuela, Satillo in Mexico, Ontario in Canada, Gastonia NC, Dillion SC, Gostyn in Polonia, Ukraina and China.</p> <p>We supply around 13,000 Products for a variety of applications.</p> <p>Since its inception in 1939 Wix has maintained a strong relationship with many Original Equipment Manufacturers and developing solutions for their filtration needs.</p> <p>Some of the key OEMs Wix provides filters to are: Caterpillar, Chrysler, Cummins Power Generation, Daimler Truck, Detroit Diesel, Ford, General Motors, Honda Power Equipment, Jaguar, John Deere, Navistar, Nissan, Volkswagen and Volvo.</p>
Suzmek Air Filter	Suzmek		Air filters are very important components for all internal combustion engines. Their purpose is to filter out airborne particulates such as dust, pollen, soot, mist and others before they reach the engine. Cleaner air in the combustible mixture (petrol or diesel and air) provides for more efficient combustion and protection of critical engine components such as valves, injectors and sensitive electronic controls.
Suzmek Oil Filter	Suzmek		Through extensive research, experts have found that the prime cause of engine wear and failure is engine dirt, which originates from operation of the engine. Airborne dust, soot, microscopic metal particles generated inside the engine through friction and contaminants due to oil degradation are carried by the oil through clearances between the various moving parts of the engines and they cause the wear by grinding surfaces, altering clearances and generating more abrasive fragments ultimately causing costly precision components to fail altogether. Oil filters play an important role in engine protection by filtering this engine dirt from the circulating oil resulting in better engine life and performance.
Suzmek Fuel Filter	Suzmek		The fuel entering the combustion chamber of the Internal Combustion Engines is invariably contaminated with dirt, liquid droplets, pollen and rust from storage tanks of the vehicle. Apart from this Indian fuel pumps are known for their lack of maintenance due to which a lot of impurities end up in the engines during refueling. Critical parts of the engine like Injectors, carburetor and the fuel pump get clogged by these impurities. Modern systems such as common rail and pump injection are severely damaged by these impurities as they cause corrosion, resulting in malfunctioning of the entire system. As a result, the fuel consumption of the engine increases. A well performing fuel filter is critical for reliable protection and performance of the engine.

Suzmek Fuel/Water Separator	Suzmek		Water and other solid contaminants wash away coating of high precision injection components. This results in wear, erosion, surface pitting and eventual pressure loss. With the use of fuel/ water separator, a high percentage of water and most of the contaminants are removed from the diesel fuel.
Suzmek Cabin Air Filter	Suzmek		The rapid growth in Indian economy has given a significant boost to the automotive and infrastructure sector. But on the downside the increased number of vehicles and rate of construction has adversely impacted the air quality around us. The main purpose is to clean the polluted air that enters into the interior of the car thus ensuring a better atmosphere inside the car. Suzmek uses the best quality materials to ensure a clean and odour free air in the interiors of your vehicle.
Suzmek Hydraulic Filter	Suzmek		Hydraulic filters protect your hydraulic system components from damage due to contamination of oils or other hydraulic fluid in use caused by particles. Hydraulic oil gets easily contaminated and the contaminants can cause severe damage to the hydraulic system components. Suzmek provides a range of hydraulic filters, to increase the hydraulic lifetime of your hydraulic components.
Suzmek Coolant Filter	Suzmek		Proper functioning and a well maintained cooling system are critical for the health of diesel engines. A high percentage of catastrophic and premature diesel engine failures are related to improper maintenance of cooling systems. Coolant filters help maintain proper heat transfer by filtering solid contaminants like rust and sand particles from the coolant which in turn minimizes corrosion and blockage in the cooling system. An essential component for today's diesel engines, Suzmek provides a wide range of coolant filters to cater to the great range of vehicles available in the market.
M100	Paramount Construction Equipments	Rock Breakers	Suitable for 11 to 16 ton machine. Tool diameter 100 mm Operating weight 973 kg Impact Rate 350-700 BPM
M140	Paramount Construction Equipments	Rock Breakers	Suitable for 18 to 26 ton machine. Tool diameter 140 mm Operating weight 1830 kg Impact Rate 350-500 BPM
M155	Paramount Construction Equipments	Rock Breakers	Suitable for 28 to 35 ton machine. Tool diameter 155 mm Operating weight 2781 kg Impact Rate 300-400 BPM
M68	Paramount Construction Equipments	Rock Breakers	Suitable for 5 to 8 ton machine. Tool diameter 68 mm Operating weight 385 kg Impact Rate 450-900 BPM
M75	Paramount Construction Equipments	Rock Breakers	Suitable for 5 to 8 ton machine. Tool diameter 75 mm Operating weight 400 kg Impact Rate 450-900 BPM
M53	Paramount Construction Equipments	Rock Breakers	Suitable for 1.2 to 3.0 ton machine. Tool diameter 53 mm Operating weight 150 kg Impact Rate 700-1200 BPM
M45	Paramount Construction Equipments	Rock Breakers	Suitable for 1.2 to 3.0 ton machine. Tool diameter 45 mm Operating weight 126 kg Impact Rate 700-1200 BPM
DandA 220DX	DandA Breakers	Medium Range	Suitable for 20 to 26 ton machine. Tool diameter 135 mm, Operating weight 1,845 kg, Power mode 340-450 BPM, Speed mode 420-550 BPM .  The breaker has a diaphragm to prevent excessive shock.

Mob. No. 8983 992 471

DandA 130DX	DandA Breakers	Medium Range	Suitable for 10 to 15 ton machine. Tool 105 diameter mm, Operating weight 1,012 kg, Power mode 350-550 BPM, Speed mode 600-900 BPM.
DandA 200DX	DandA Breakers	Medium Range	Suitable for 18 to 24 ton machine. Tool diameter 135 mm, Operating weight 1,577 kg, Power mode 320-480 BPM, Speed mode 400-600 BPM.
DandA 17V	DandA Breakers	Compact Range	Suitable for 1.5 to 4.0 ton machine. Tool diameter 57 mm, Operating weight 184 kg, Power mode 600-1,500 BPM, Speed mode 600-1,500 BPM.
Dand A 60V	DandA Breakers	Compact Range	Suitable for 4.5 to 8.0 ton machine. Tool diameter 75 mm, Operating weight 412 kg, Power mode 380-900 BPM, Speed mode 380-900 BPM.
DandA 360DX	DandA Breakers	Large Range	Suitable for 28 to 42 ton machine. Tool diameter 155 mm, Operating weight 2,770 kg, Power mode 230-400 BPM, Speed mode 270-470 BPM.
DandA 450DX	DandA Breakers	Large Range	Suitable for 34 to 50 ton machine. Tool diameter 165 mm, Operating weight 3,487 kg, Power mode 230-345 BPM, Speed mode 70-410 BPM.
DandA 550DX	DandA Breakers	Large Range	Suitable for 40 to 60 ton machine. Tool diameter 175 mm, Operating weight 4,099 kg, Power mode 230-330 BPM, Speed mode 270-500 BPM.
DandA 650DX	DandA Breakers	Large Range	Suitable for 45 to 80 ton machine. Tool diameter 180 mm, Operating weight 4,486 kg, Power mode 270-280 BPM, Speed mode 380-530 BPM.
DandA 700DX	DandA Breakers	Large Range	Suitable for 58 to 100 ton machine. Tool diameter 200 mm, Operating weight 5,838 kg, Power mode 220-300 BPM, Speed mode 290-400 BPM.
DandA 750DX	DandA Breakers	Large Range	Suitable for 60-100 to ton machine. Tool diameter 205 mm, Operating weight 6,710 kg, Power mode 205-285 BPM, Speed mode 235-420 BPM.
Mahindra RoadMaster G90	Mahindra Construction Equipments	RoadMaster	The 55 kW (74 HP), 3.5 litre, 4 cylinder CRDI engine offers 400 Nm torque for high-level grading performance
Mahindra RoadMaster G100	Mahindra Construction Equipments	RoadMaster	The 76 kW (102 HP), 3.5 litre, 4 cylinder CRDI engine offers 440 Nm torque for high-level grading performance.
Mahindra RoadMaster G80	Mahindra Construction Equipments	RoadMaster	The 55 kW (74 HP) 3.5 litre, 4 cylinder CRDI engine offers 400 Nm torque for high-level grading performance.
Mahindra - Backhoe Loader SXE	Mahindra Construction Equipments	EarthMaster	The machine has a 41 kW (55 HP) engine, offering a best-in-class fuel. Its large radiator ensures that it does not overheat in peak summers.
Mahindra - Backhoe Loader SX	Mahindra Construction Equipments	EarthMaster	Powered by a rugged 55 kW (74 HP) Mahindra NEF engine, it offers best-in-class fuel consumption, ensuring higher productivity per litre. Packed with smart features like Auto-Idle, mode selection for fuel optimization, advanced hydraulics, and iMAXX telematics for real-time monitoring, the EarthMaster SX is designed to go the distance efficiently, powerfully, and reliably.

Mob. No. 8983 992 471

Mahindra - Backhoe Loader VX	Mahindra Construction Equipments	EarthMaster	The most fuel-efficient backhoe loader, EarthMaster VX is equipped with a joystick that makes it easy to operate as compared to mechanical levers. This joystick enables effortless, convenient, and smooth operations, reducing operator fatigue and increasing productivity.
Mahindra - Backhoe Loader SXL	Mahindra Construction Equipments	EarthMaster	In a remarkable stride towards innovative technology, Mahindra is proud to introduce the latest breakthrough in the Backhoe Loader category – the EarthMaster SXL. This cutting-edge creation stands as a testament to Mahindra's unwavering commitment to pushing boundaries and setting new industry standards.
